FOR IMMEDIATE RELEASE

**SIGNPRO SYSTEMS INTRODUCES NEW PRODUCT-
THE ILLUMINATED COLLAPSIBLE TOWER**

Bolingbrook, IL –November 2, 2011: SignPro Systems, a wayfinding and architectural signage division of the Orbus Exhibit & Display Group, is proud to introduce a new signage and display solution, the Illuminated Collapsible Tower.

This cost-effective, double-sided, free-standing tower features a sturdy construction and stylish design. The tower is available in 24” and 33” widths both at a height of 72”. Both sizes include two bubble graphics that are held under tension in a curved, convex position.

The Collapsible Tower offers silver or black upright options as well as a lighting kit to turn the tower into a standing lightbox. Thanks to its new two-part upright the tower collapses and can be easily stored and transported in a durable wheeled case (OCP case).

“The Collapsible Towers provide an illuminated display option that is portable, tradeshow-friendly and easy to assemble,” said Julien Aiglon, SignPro Systems Division Manager.

SignPro Systems (SPS) provides affordable, modular wayfinding signage to the trade. SignPro Systems is proud to boast ever-increasing custom capabilities and can create frames and signs in a multitude of sign substrates and fabrication methods. Visit SignProSystems.com today to view other items in our extensive product line.

The New Collapsible Tower is available in two different widths: 24” and 33”.

The Orbus Exhibit & Display Group is a market-leading, privately owned group of companies that specialize in the manufacture and trade only supply of portable modular and custom modular, exhibit and display, products, graphics and solutions.
